

DESCRIPTION

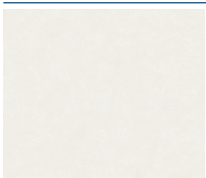

Most basaltine collections are one dimensional - you'd be hard pressed to find a pop of color. Coltina defies that. This collection examines how colors and patterns respond to the grey base of the basaltine. Depending on which color pattern is chosen, you get a different effect. The brightness of the pink pops on the grey body, while the softness of the purple fades away on the grey. With four pattern options to choose from in seven colors, this collection will have you looking for a project to use it on!
