Why "Stop Making Sense"?  
Why a movie? Why tour?  
Why do the musicians come out gradually?  
What will the band do next?  
Where do the odd movements come from?  
Are live concerts better or worse than records?  
Why no "special effects" in the movie?  
Why a big suit?  
Why was a digital system used for the sound?

# VINTAGE STONE

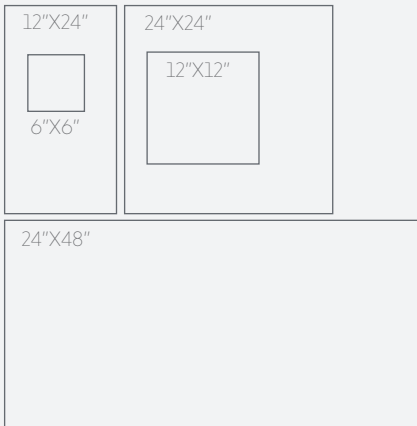

# VINTAGE STONE

The expansive Vintage Stone tile collection takes the classic beauty of natural stones and focuses on perfecting them in porcelain. Multiple sizes, thicknesses and finishes allow the designer to select the perfect tile for commercial interiors. The décor options, which combine the glorious honed and matte finishes, round out this collection bringing the designer a marble and stone tile collection like no other. Perhaps the best part is the worry-free maintenance of porcelain tile!

# GRANULAR

# GRANULAR

Back to basics is anything but boring when designing with Granular porcelain tile. The authenticity of this familiar 12"x12" speckle goes from small to large, and then gets amped up even further, creating playful patterns throughout spaces that crave contemporary updates. Design with up to 4 playful patterns individually, or select the Mix to include all four together!
