

Description

Pixel porcelain tile is a collection with endless design solutions that can function as a basic need or make way for playfulness and imagination.

What Creative Materials Needs

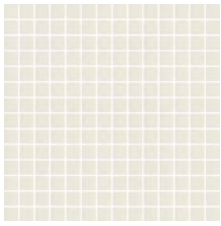

1. What are the dimensions of the area where the mosaic will be installed?
2. What is the budget for the project?
3. Where will the mosaic be installed (e.g., wall, floor, pool, backsplash)?
4. Inspiration or concept of design for the space.
5. List of Pixel colors. See page 2.
6. Would you like grout color recommendations?

FAQs

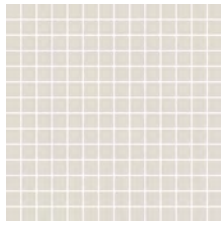

1. Are there minimum quantities?
 - Yes, one box, which equals 32.28 square feet.
2. Are custom murals made to size?
 - Yes. The size of the mural, always provided in advance by the client, is considered in each job.
3. How long does the rendering process take?
 - It depends on the complexity of the design. On average, between 1 to 2 weeks.
4. How is the sampling process handled?
 - After the artwork process, files will be provided by email for a first idea of the final result. Sometimes, a sample of the custom mosaic can be sent for further approval. Individual color samples are always available.
5. Do lead times vary depending on the complexity of the design?
 - Yes. This can be confirmed when understanding the scope of the project, noting it is a minimum of 12 to 14 weeks.
6. Are there additional costs for design customization or expedited production?
 - Yes, there are always additional costs based on the specificity and complexity of the project.
7. How do I submit the request?
 - Please send all of the details to your A&D Consultant or info@creativematerialscorp.com. We will contact you with any questions.
