

Beige Stone, Green, and Green Oblong

Description

Crossform brings together the quiet beauty of natural materials with the expressive possibilities of contemporary surface design. The collection pairs the organic character of stone-look porcelain tile with the understated elegance of plaster-inspired surfaces, creating a balanced palette.

The installer should adhere to the mosaic sheet layout and preserve the spacing as shown in the original plan. Alternatively, they can measure directly during installation and ensure the same distances are maintained. This is the correct approach, as we do not have ultra-precise measurements for the mosaic. The installation should follow the original layout and spacing guidelines.
